

UNIVERSITAT DE BARCELONA
BUSINESS SCHOOL

15th EURAM Early Career Colloquium

Setting the course toward meaningful careers

Universitat de Barcelona Business School, Barcelona

11-13 March 2024

Are you an **early career academic** looking for **sharing your research** and **developing collaboration opportunities** in a vibrant environment of peers, senior mentors and the EURAM top management team?

The European Academy of Management Early Career Community invites **Postdocs, recently appointed Lecturers or Assistant Professors** in management and cognate fields of research to the **fifteenth edition of the EURAM Early Career Colloquium (EECC), 11-13 March 2024.**

The key objective of the colloquium is to offer a platform for early career management scholars. This year, we will embrace the **many forms a meaningful career** as a management scholar can take, and focus specifically on helping participants to imagine and realize this unique vision.

The event is a unique opportunity to gain face-to-face feedback on your research and your career trajectory from experienced scholars who have lived it.

This year's colloquium promises to be an engaging and fun-filled event! Specific activities include:

1. Dedicated time to discussing and developing your research ideas
2. One-on-one coaching session on career development from a senior academic
3. Workshops and seminars dedicated to developing a successful research trajectory
4. Networking activities for building international relations and exploring possibilities for future collaborations

Established in 1450, The **University of Barcelona** is the main public university in Catalonia, Spain, offering the widest and most complete range of subjects. Moreover, it is one of the largest research centers in Europe, both in terms of the research programs offered and the level of excellence achieved in this field. UB Business School was founded in 2014. It encompasses a long tradition of high-quality education and of excellence in its research activities at an international level. It prepares both professionals and researchers who are able to find solutions to current and future challenges from the various organisations.

The University of Barcelona is located in Barcelona, on the Mediterranean coast. With a population of over 1.5 million, Barcelona is one of the most economically, socially, and culturally important cities in Europe and is characterized by its extraordinary diversity. Barcelona is easily accessible via rail and air. The area boasts an excellent public transport system, considered one of the best in Europe. TMB, the metropolitan transport authority, operates two permanent transport networks (subway and bus) and offers a range of leisure services.

Attending the EECC will further give you a **secure place at the EURAM 2024 Conference** and an opportunity to **contribute to a book!**

1. All participants will have the possibility to **submit a revised manuscript** to a **dedicated EECC track at the EURAM 2024 conference** to be held 25-28 June 2024 at the University of Bath School of Management, UK, and register at a preferential rate.

2. Selected participants will be invited to **contribute to a book** and be a part of a **collective effort** to drive greater equality in academia from the distinctive perspective of early career researchers.

Interested? Kindly upload a **draft research paper, a CV and a picture**

The EECC 2024 fees include:

- Admission to the sessions and the keynotes on Tuesday and Wednesday
- The social event on Monday
- The dinner on Monday evening
- Coffee breaks & lunches to be served on Tuesday and Wednesday
- The Welcome pack

The yearlong EECC mentoring

Every attendee will embark on a yearlong EECC mentoring scheme - it's a supportive community dedicated to your growth and success. After the meeting

in March, we have envisaged 2-3 online coaching sessions with a mentor whose area of expertise will match your own research field. These sessions will go beyond paper feedback, offering valuable advice on cultivating a successful research career.

Our unique mentorship programme will cover a spectrum of topics, including achieving a healthy work-life balance, building a robust research network, and mastering the art of managing a portfolio of articles. You'll also have access to a dedicated LinkedIn page for the community and will be invited to a culminating event at the EURAM 2024 Conference, where you can further expand your network and engage in enriching discussions.
